INTRODUCTION

My name is Anders, and I am 28 years old. I hold a Bachelor's degree in IT, Business Communication and English, and I also have experience and education in the freight forwarding industry. I am currently employed as IT/Transport-Management-System Specialist at LEMAN A/S working with various areas of IT from project management and development to training and support. I also have education and competences in the areas of communication and language, and I have previously been working as a written supervisor at the University of Southern Denmark during my time as a student. Finally, I also have knowledge and experience with web development - both front-end and back-end. I have been involved in three projects and am currently web-admin in a flying club.

My education and working experience also include topics such as:

Agile project management; SQL and relational-databases; server management and configuration; version and release management; training and support; user-experience and feedback; knowledge-sharing and documentation; logistics software administrator - Soloplan / CarLo; IT-integrations, mapping and dataflow; web programming and web design; content management; communication.

For elaboration please read more under *competences & knowledge areas* below.

PERSONAL PROFILE

My personality is empathic, social, independent and responsible.

Professionally, I am structured, analytical, creative and have a strong numeracy.

WORK EXPERIENCE

LEMAN A/S

Taulov

LEISURE TIME

I live in Kolding with my girlfriend, Pernille and our dog, Mille. I love outdoor activities and sports. I also have a pilot license, and I have been flying gliders and small aircrafts since I was 14. I thrive in the social and relaxed environment in the flying club. I also participate in competitive gliding contests.
